CORE COURSE WORK

- Software Engineering
- Data Structures and Algorithms
- Database Systems
- Artificial Intelligence
- Statistical Inference and Probability Theory
- Data Analysis & Visualization

LANGUAGES

C++, Java, JavaScript, TypeScript, PHP, HTML, CSS, Python, R, SAS

FRAMEWORKS & LIBRARIES

React, Express.js, NestJS, Jest

TOOLS & PLATFORMS

Git & GitHub
Microsoft 365

INTERESTS

Statistics, Cyber Security, Strength training, Running, Meal Prepping, Sewing, Reading

PROJECTS

Database & Netcentric Systems Project
Designed and implemented an eCommerce application, including relational database schema, PHP REST API, and a responsive web interface
Tech Stack: Vanilla HTML, CSS, JavaScript for the frontend and a PHP backend.

Design Patterns Project
Developed a garden nursery simulation game, implementing ten design patterns in a multithreaded environment.
Tech Stack: React, C++, Oat++

Software Engineering Mini-Project
Built a full-stack Municipal Integrated Service Portal that provides residents with centralized access to municipal services.
Tech Stack: React, Express.js, PostgreSQL, Supabase.

Le Wagon Project Coverage
Daily projects and tasks covering data analytics, statistical modelling, machine learning, deep learning, and machine learning engineering, including cloud deployment, and ML pipelines
Tech Stack: Python, SQL, Jupyter Notebooks, Google Cloud Platform (GCP)

EDUCATION

Bachelor of Science in Computer and Data Science	The University of Pretoria	2023 – *present*
Le Wagon Data Science 9-week Bootcamp	Le Wagon Cape Town	2023
Matric English HL, Afrikaans FAL, Mathematics Core, Computer Application Technology, Engineering Graphics & Design, Physics	Curro Nelspruit	2022
